

⚡ Your RBI Grade B 12 Months Planner

| *Designed by Teachers. Backed by Toppers. Made for You.*

👋 Welcome, Future RBI Officer.

Twelve months. That's what stands between you and the life you've been working toward.

We won't pretend it's easy. The RBI Grade B exam is one of the toughest in the country — and most aspirants struggle not because they lack intelligence, but because they lack a clear plan.

That's exactly why this planner exists.

Not to overwhelm you. Not to hand you a rigid timetable you'll abandon in some weeks. But to give you a **structured and sustainable path** — one that has already worked for hundreds of toppers before you.

You just have to show up. We'll take care of the rest.

🎯 What This Planner Will Do For You

This isn't just a schedule. It's a complete preparation system designed to:

- Walk you through the **entire RBI Grade B syllabus** — nothing missed, nothing wasted
- Make sure you **practice as you learn** — so exam day feels like revision, not a surprise
- Keep you **consistently exam-ready** — without burning out halfway through

Every subject, every topic, and every week has been placed here with a specific reason. Trust the sequence.

🕒 How Your Classes Are Structured

You'll have **two live sessions every day** — a focused morning class and an in-depth evening session.

- **Morning:** 9:30 AM – 11:00 AM (1.5 hours)
- **Evening:** 6:00 PM – 7:30 PM (1.5 hours)

Each session combines concept teaching, real application, and practice — so you're never just passively absorbing theory. You're learning to *use* what you know.

📝 Weekly Tests — Because Practice Beats Passive Reading

Every week, you'll take **two tests** designed to mirror actual RBI exam conditions:

- Objective questions at RBI difficulty level
- Descriptive components wherever the exam demands it

These tests aren't just assessments. They're your training ground. They're designed to:

- **Expose the weak areas** you didn't know you had
- **Improve speed and accuracy** that exam day demands
- **Simulate exam pressure** - Get you comfortable with pressure — before it matters

Every topic, every subject, and every week is placed with **clear intent**.

After Every Test: Live Discussion & Evaluation

A score alone tells you very little. What matters is understanding *why* you got something wrong — and what to do differently next time.

After every test, there's a **live discussion session** where we go through:

- Detailed answer explanations
- Common mistakes and how to avoid them
- Approach corrections to sharpen your thinking

You won't just see your score. You'll understand it.

Weekly Mentorship with Anuj Jindal Sir

Once every week, Anuj Jindal Sir sits down with the batch for a **live mentorship and guidance session**. This isn't a class — it's a check-in.

He reviews the topics covered during the week, evaluates answer writing tests live, and makes sure everyone is moving in the right direction. Think of it as your weekly compass reset.

How to Actually Use This Planner

A planner is only as good as how you use it. Here's the mindset that works:

- **Think in weeks, not days.** Some days will be harder than others. Don't spiral. Zoom out.
- **Execute, don't perfect.** A plan followed imperfectly beats a perfect plan never started.
- **Trust the structure.** It's been built to compound — the effort you put in today multiplies over months.

Some weeks will feel intense. That's not a sign something is wrong — that's a sign you're growing.

You're preparing to become an RBI Officer. That's supposed to feel like something.

What Works — Do These

- Study Phase 1 and Phase 2 together, exactly as this planner lays out
- Finish at least **50% of syllabus** before stressing about Current Affairs
- Focus on **concepts first, facts later**

What Doesn't Work — Avoid These

- Mindless scrolling and social media rabbit holes
- Jumping between too many sources and newspapers
- Chasing information for the sake of it — chase understanding instead

Stay consistent. The students who crack RBI aren't always the smartest ones in the room. They're the ones who kept going.

This plan works. But only if you do.

How This Planner Is Structured

This planner is divided into **two simple parts** to help you stay oriented throughout your preparation.

Part 1: Planner Summary

In the next few pages, you'll see a **week-by-week summary** of the entire syllabus.

This section helps you understand:

- Which **subjects** are covered every week
- How many **weeks** each subject gets
- How the syllabus is **distributed across the year**

Think of this as your **roadmap** — it shows *where you are* and *what's coming next*.

Part 2: Detailed Weekly Planner

After the summary, you'll find the **detailed version** of the same plan.

Here, every week is broken down with:

- Subjects & topics
- Live class structure
- Study focus for that phase

This section tells you **exactly what to do**, week by week.

Planner Summary

How to Read This Summary

The summary table below gives you a **bird's-eye view** of the entire 6 months journey, after which you can focus on Current Affairs and Revision.

It shows:

- Which **subjects** are covered every week
- How many **weeks** each subject gets
- How the syllabus is **strategically distributed** across the year

This is not a rigid schedule — it's a **strategic map**.

Use the summary table below to understand **where you are** and **what's coming next**

Whenever you feel lost or overwhelmed, come back to this page. It'll remind you that there's a plan — and you're right on track.

Current Affairs Coverage (Throughout the Year)

How to Do It Right

- **PIB 247 & RBI 247** → 6 months
- **Spotlight Magazine** → 6 months

Current Affairs runs **parallel** with static subjects.

There is no “separate CA phase”.

Current Affairs is **not about memorising headlines**.

It’s about **understanding impact, intent, and linkage**.

How to Approach CA:

- Link CA with **ESI & Finance topics**
- Focus on **RBI-relevant developments**
- Read for **context**, not just facts

Best Practices:

- Don’t make bulky notes 
- Revise weekly, not daily 
- Understand the **“why” behind events** 

✨ If your static concepts are strong,

Current Affairs becomes **easy and intuitive**.

👉 Finish the syllabus first.

👉 Current Affairs never ends — syllabus does.
